REVIEW OF THE FINAL ACTION MEMORANDUM/ NON-TIME CRITICAL REMEDIAL
ACTION PLAN FOR SITE 7, STATION LANDFILL, NAVAL WEAPONS STATION,
SEAL BEACH, DATED MARCH 15, 2004

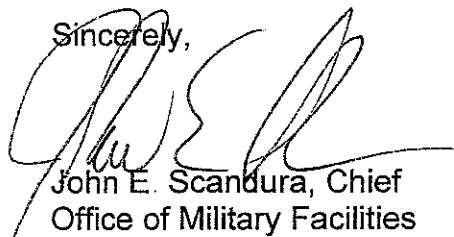

Dear Ms. Tamashiro:

The Department of Toxic Substances Control (DTSC) has reviewed the Final Action Memorandum/Remedial Action Plan (AM/RAP) prepared by Naval Facilities Engineering Command, Southwest Division. The AM/RAP was prepared to document, for the Administrative Record, the Department Of Navy decision to undertake a non-time-critical removal action at Site 7, the station landfill and two adjacent areas to Site 7, Area of Concern 1 A and 2 A at Site 4, the perimeter road.

The proposed removal action consisted of: limited soil cover repairs, surface debris removal, excavation and offsite disposal of solid waste and lead impacted soil, and ground water monitoring.

Upon review, DTSC concurs with the final AM/RAP and has no significant comments. If you have any questions, please call Ms. Katherine Leibel at (714) 484-5446.

Sincerely,

John E. Scandura, Chief
Office of Military Facilities
Southern California Region
